ing petition as a candidate for President of the United States at the State primaries in March, was announced today. The petition also was signed by six delegates to the recent State proposition are summarised as being to "make and heat the country safe for democracy."

Under the State law Gerard's name would go on the ballot as an independent Democraticandidate, inasmuch as the State Republican proposal meeting indersed Maj-Gen. Leonard Woods as their candidate and the Democratic meeting favored Woodrow Wilson.

Late tonight Gen. Wood's acceptance of the Republican proposal meeting indorsement of been received here. He has until midnight tonight to file his acceptance of the candidacy platform adopted by the convention.

NEW YORK, Dec. 15.—(Exclusive Dispatch.) The announcement from Pierre, S. D., that J Gerard had entered the race for the Democratic nomination for President came as a surprise to De politicians in this city. In all the pre-convention political gossip there had been nothing to indicate

Gerard would throw his hat into the ring.

The prospect of Mr. Gerard receiving a "favorite-son" indersement from his own State was repromising among Democratic politicians who learned that he was seeking an indersement from the of South Dakota. It is believed that Tammany Hall would be only too happy to throw its strengerard, who before he became a Justice of the Supreme Court was chairman of the Finance Contamany Hall and instrumental in that capacity in raising funds for the organization in some successful campaigns. From another point of view, also, the appearance of Mr. Gerard as a candible welosined by Tammany. A Gerard boom in this State, of which Tammany politicians regard of the Gerard petition in South Dakota as a forerunner, might divert strength from the ex-Secret Treasury, William G. McAdoo, whose candidacy for the Presidential nomination has been viewed siderable alarm and distilte in Tammany circles.

A course in ACCOUNTANCY and BUSI-NESS LAW will benefit anybody regardless of the business they happen to be in.

The demand for TRAINED ACCOUNT-ANTS far exceeds the supply—take advan-tage of this—and prepare yourself for these high-paid positions.

Several months ago the Government advertised for clerks, book-keepers and accountants, mostly clerks and book-keepers, which positions were easily filled; but the accounting positions, paying from \$3000.00 to \$4500.00 annually, were very difficult to fill! There are not enough men trained to do high-grade accounting work — the work do high-grade accounting work — the work of the AUDITOR, COMPTROLLER, or CERTIFIED PUBLIC ACCOUNTANT.

Legislators, Bankers, Capitalists and corporation executives would be "all at sea" without the accountant. They determine their policies on the basis of his figures and conclusions. WALTON training gives the technical and the general knowledge you need for the highest success in accountancy.

and less majeste a few years ago.
It is impossible to give too much
importance to the anti-militaristic
fight here. The whole question of the
future relationship for America and
Japan is involved.

ARMED DIPLOMACY. ARMED DIPLOMACY.

ARMED DIPLOMACY.

"The truth is," says the editorial,
"that it is not the Foreign Office
but by military men dispatched to
tarists that is responsible for the
anti-Japanese sentiment in China.
The trouble was not caused either
by a Japanese minister or consul,
but by military men dispatched to
China by the General Staff in Tokio.
It need not be said that Japan's
diplomacy is conducted by officials
of the Foreign Office and by men
of the General Staff independently.
Consequently, there is no unity in
our diplomacy, and it often happens
that one destroys the programme of
the other.

that one destroys the programme of the other.

"If anti-Japanese sentiment was entirely generated from the Foreign Office the change by the Cabinet to a new Chinese policy would have produced a change in the mentality of the Chinese people, and there has been none. Is this not proof that the main responsibility lies with the

dgn Office?

Not only has military diplomacy ratured anti-Japanism in China and disordered the proper foreign policy, but it is calculated to invite the suspicions of Europe and America and to drive us into an isolated position.

ALIENATE AMERICA.

"None expected Shantung and the disposal of the South Sea Islands to cause such troubles in Paris as they did. The fact that America sympathized with China and apparently intended to thwart Japan's legitimate claim was due to suspicion entertained in Europe and America that Japan was taking up a policy of aggression against China. Similar suspicion and desire to keep guard over the doings of Japan account for the proposal of America to organize a new consortium with China. despite the fact America seceded from the old consortium. A similar reason explains the fact that America and other countries dispatched troops to Siberia for the maintenance of peace, instead of instrusting the task entirely to Japan. "Japan is misunderstood and suspected by Europe and America and is resarded as the Germany of the Far East. These foreign misunderstandings are due to the military policy of diplomacy. Even if there were no anti-Japanese aritation in China we should de away with a diplomacy of militarista."

The military party is weakened, but not routed and the coraing season of the flet will see the battle lines between the two orders tightened. The liberal elements, backed by the popular demand and supported by all the newspapers, are fighting for universal suffrage. Only 3,000,000 of Japan's 70,000,000 vote today while the per cent. of Uliteracy is one of the smallest anywhere in ALIENATE AMERICA.

today while the per cent. of Wileracy is one of the smallest anywhere in the world. The masses are only slightly educated, but there is almost no liliteracy, and they demand the cotton of a charm, multiple affeirs. no illiteracy, and they demand the vote and a share in public affairs. All this naturally is opposed to the old-fashioned militarists. They want to continue running things their ownway. In Biberia, the general staff, playing its own game without concern of the Tokio Foreign Office, has been jockeying for control of Eastern Siberia. It has played the Cossacky against Kolchak, Kolchak against the Americans, supported one side, then the other, and has succeeded in having everybody to Siberia distrust the Japanese troops. But here, within the country, the best men are trying to smooth out these military mistakes and to put down the miniary clique substituting responsible civil government. It is a promising sign of peace in the CARUSO LEADING FIGHT

SEECLESTVE DOSPATCH.] WASHINGTON, Dec. 15 .- Presi ent Wilson's message to Congress on the railroads is awaited with universal interest. A widely circulated nd aparently well-founded rumor is to the effect that in this message the President will lay the blame up-on the Republican malority in Con-gress for the necessity of retaining Federal control after the end of the

Federal control after the end of the year.

The President will say in this meanage, according to the statement made tonight, that the Republicans, by their failure to ratify the peace treaty, have continued a state of war; and that, under the provisions of the war control act, he cannot terminate Federal control.

He will further charge the Republicans with interference in passing adequate legislation for the tailroads under private management. If the predictions made tonight are verified, the Fresident will ask Congress to abandon its Christmas vacation and attempt to pass some permanent form of railroad legislation PROPHESIES FAILURE. PROPHESIES FAILURE.

WASHINGTON, Dec. 15.—Congress was warned today that if the railroads were turned back to their owners without enactment meanwhile of legislation for protection of the properties two-thirds of the roads would be in hands of receivers within thirty days.

while of logsman worthirds or the properties two-thirds or the most obstinate wrinkles as well as the fleast lines, is a remarkable formula which you may readily avail yourself processing the constituents from your dress. senator Cummins told the senator aduly was plain.
"If the roads are returned without effective legislation they could exist for a month," the Senator declared, amid unusual silence, "and then fall into hopeless confusion, with two into hopeless confusion, with Awo-thirds of them quickly ending in re-ceivership."

Benator Cummins insisted Con-stress should turn back the roads if satisfied the people believed in that solicy.

TO RUSH BILL

TO RUSH BILL.

"They can go back on January 1 in perfect safety," he said, "if the country is assured of the bill's enactment in one month's time."

In hope of expediting the measure, the Senate remained in session tonight, but there developed little indication of final action this week. Leaders insisted, however, that the bill would be passed by a "narrow margin" before Saturday.

Senator Smith, Demograt. Georgia, rising to inquire if it would not be best to defer consideration of all railroad legislation until January. Provoked a storm of discussion and drew from Republican Senators a warning that there was no indication of any change of mind on the President's statement to Congress in May that the roads would be handed back at the end of the calendar year, Senator Watson, Republican, Indiana, salled attention to the fact that no word had come from the White House to indicate any change in the President's position.

ATTACK MEASURE.

ATTACK MEASURE. During the all-day debate, the principal attacks on the Cummins bill were made by Senators Larcot, Republican, Wisconsin, and Stanley, Democrat, Kentucky, the former insisting the roads should be

retained by the government until spring.

The Senate went to work on amendmenta One by Senator Waish. Democrat. Montana, permitting the roads to retain for construction work all earnings for ten years, was adopted, as was one by Senator Jones, Republican, Washington, limiting jurisdiction of the transportation board over water transportation board over water transportation to inland waterways.

A bill proposing public ownership and government operation of the railreads was introduced tonight by Senator Norris, Republican, Nebraska, and 'aferred to the Interstate Commerce Committee. It would create a Federal railroad corporation, managed by five directors appointed by the President, and have \$10,000,000,000,000 of stock, with additional "employees stock" to subscription only by railroad employees equal to one-fourth of the book value of the railroad property.

The public will be permitted to subscribe to the general stock of the company, which would be authorized to take over existing railroad property by condemnation proceedings and also build new lines.

CONGRESSMEN DECLARE CON-SUMERS MUST BE PROTECT-ED FROM PROPITEERS.

WASHINGTON. Dec. 11.—Complete government control of prices and distribution of sugar is necessary for protection of family consumers from profiteers, members of Congress declared today before the House Agriculture Committee, G. A. Zabrishie, president of the Sugar Equalization Board, advised the committee that continuance of the board would be useless unless it was given control over prices and distribution. These powers, he pointed out, are not included in the pending McNary bill.

Opposition to the McNary bill, passed hast week by the Senate, led to an informal agreement among committeemen and House leaders to eliminate from the measure provisions repealing the Heensing powers of the government, as conferred by the food control set.

Chairman Hausen said formal action would be taken touporrow, under a plan calling for early action by the House.

Advocates of broad government control, as well as the purchase of the Cuban crop, told the committee "kky-high" prices were threatmed, and that mere purchase of the Cuban crop anly would aid profiteers by increasing the supply.

For the first ten months of this war almost, 1250,000,000 pounds of sugar have been exported from this country, said Representative Dallinger, Republicen. Massanchusetts, elting the Equalization Board as an-(BY A. P. MIGHE WIRE.)

country, said Representative Dallinger. Republican, Massachusetts, siting the Equalisation Board as authority for hie figures. The only general opposition to the bill was voiced by Representative Marten, Democrat, Louisiana, who declared it was "unnecessary" and blamed the shortage or Congressional agitation for purchase of the Cubas crop and the recent longulousers strike, which delayed deliveries.

YOUR HOLIDAY Good Wishes Expressed IN JEWELRY

17 IS pleasing to learn from those who are engaged in their holiday jewelry shopping at Brock and Company, that beauty-originality-exclustoeness—are paramount in our unusual Nineteen Nineteen offering.

Especially are these essentials notable in the artistically blended diamond and platinum brooches, bracelet watches, earrings, necklaces; the exquisite originations in gold, silver and enamel ware; and the colorfully charming, delicately carved Oriental jade.

Your holiday good wishes will be easily expressed by a visit to Brock and Company's store, where an abundance of offerings, and a competent sales force-imbued with the real Christmas spirit-render it additionally pleasing to make your gift selections.

> There are not many days to Christmas and jewelry buying is in full swing. Brock and Company advise you, therefore, to buy now, in order that you may take advantage of the complete assortments-the largest ever assembled in the Southland-and make your purchases under ideal conditions.

HAYNES REFUSES.

A petition requesting Gov. Stephens to remove Col. Harris Weshistock from the position of State Market Director and to name in his place someone in sympathy with the spirit of the act under which Col. Weinstock was appointed was presented to the Mayor's Milk Investigation Committee, yesterday, by Dr. Ralph L. Byrnes, and was immediately indoresed.

"The Milk Commission of the city of Los Angeles approves this petition," is the notation made on the form presented, and then follow the names of James P. Britt, chairman; Dr. Ralph L. Byrnes, secretary; Katherine A. James, Louise A Sterry and Ella E. Baarall. Dr. John R. Haynes, the other member of a State commission, breather of the Los Angeles County Farm Bureau, on the cost of producing milk showed an average production cost of 8.7 cents.

The committee's report to the Mayor will be considered at a meeting to be held tomorrow at 5 o'clock.

in San Francisco, according to word received here yesterday by frienda. Col. and Mrs. Read resided at 1627 Bouth Ardmore avenue until recently, when he went north for a serious surgical operation, from which he failed to recover.

He was born in Tennessee February 22, 1854, graduated from West Point in 1877 and ultimately became colonel of the Tenth Cavairy, retiring in 1914. He has resided here with Mrs. Read since that time. Funeral services will be conducted at the Presidio tomorrow and the body will be buried there. The widow, Mrs. Alice Kean Read, who is the only relative, will return to this city to make her home.

LOSES BOTH LEGS.

Word was received yesterday at the postoffice while asking for her mail, she will be returned to Oakland.

Although the local police know nothing of her case, she informed them that she stole a diamond lavalilere and five diamond rings from Miss Heraldson, a friend of many years. The jewelry was sold in San Francisco for \$1800.

Mrs. Harris stated that she took the jewelry to get funds to leave the north with a young man, Just before leaving the woman discovered that the man was "not what he should be" and left the city siene.

Word was received yesterday by Deputy Sheriff Dewar that H. T. Bryant, accused of stealing an automobile here and driving it to Salt Lake City, has already paid dearly for the offense. It is charged that Bryant, with his young bridge drove to Salt Lake City, sold the stolen car for \$300 and stole another. In this car, it was said, they exarted for Wyoming, but got lost in a snowstorm. Recently Bryant had to have both legs amputated and his bride lost several tase from the effect of frost. geles, according to Lieut.-Col.

TO MAKE YOSEMITE YEAR-ROUND RESORT.

PURIOR DEPARTMENT OFFI-CIAL TELLS OF WINTER SPORT PROGRAMME,

Plans for the immediate development of Yosemite National Park into an all-the-year-round resort were outlined yesterday by Charles P. diana year ago and returned to Indiana. the Department of the Interior, who have been submitted by the Yosem-

Ite National Park Company as the basis for preliminary improvements.

'The plans call for the construction next spring of a hotel and bungalow camp, capable of accommodating 500 guests, at a point near the village of Yosemite. The hotel will be patterned after El Tovar, at Grand Canyon, the rustic features being emphasized as much as possible.

To carry the plan still further, the company has prepared plans for tent camps which will be located at Tenaya Lake, Merced Lake, Mariposs, Bir Trees and Hetch Hetchy, Each of these camps will accommodate from 200 to 300 people, and will be operated only during the summer months. The main hotel will be open the year round.

FOR NEW CHURCH. Ground will be broken at 3 p.m. today for the new Hollywood Congregational Church on Hollywood boulevard, opposite the Hellywood Women's Club. The pastor, Dr. James H. Lash, and Dr. Kengott will be among the speakers.

way you want to.

Pitching the cubes for luck, comes seven. so that's the number of the act I'll start off with. It's just the wistfullest, most appealing little little in the world, reminiscent somehow of Barris, entitled 'The Tale of a Shirt,' in which Etwin and Jane Connelly, are, respectively, pathetic little laundry maid and a rough-neck, with the girl cherishing an old shirt left a year ago, and making its owner a war hero, in her fancy. I don't remember ever seeing anything on the stage transcending the delicate beauty and subtlety of Jane Connelly's characterisation. Claudia Coleman's "Feminine Types" are as realistic as etohings, and highly amusing, all the more so for being incisively clever, with only enough burlesque to make for emphasis. We're a long way from Greenwich Villare, but the satire on that famous domain presented by Franker Wood and Bunee Wyde proves almost as entertaining as it the original were right around, the corner. I don't know why they use that picturesque, and entirely delightful act of Sam Green and Helen Myra's to open the bill. These two are very good looking, have a novel singing and violin act, and deserve a better spot.

One of the great hits of the bill is Signor Areson, of grand operafame, who, without camouflage in the way of scenery, or prope, gets over by the sheer beauty and magnetic power of his voice. Eva Shirley, who has a nice bunch of Jazz bors, pleases with a sweet soprano voice, while Al Roth puts over a shimmy shake that's the most original thing of the sort in captivity. The Wards have a marvelous casting act on the trapeze which keeps the audience breathless when it isn't "oh-ling" and "ah-ing" in astonishment, while there's a clown who assays 39 per cent, amusing, Samarroff and Sonja, Russians clad in highly idealized Russian persant costumes, perform some dances and acrobatic stunts, assisted by three or four dog actors, and Harry Green repeats his hit of last week.

Hilariously funny situations ensue; and comparing "Twin Reds" with the farces that have followed it, one finds nothing funnier on the stage. The company at the Mason brew every golden drop of comedy from the mixture. Josephine Saxe is adorably regund, radigant and irresponsible as "Blanche Hawkins;" August Aramini is screamingly funny as "Signor Monti," Kathin Tracy as the refreshingly frank "Signora Monti," is endiessly amusing. Roy MacNichol as "Harry Hawkins; couldn't be funnier, and Bess Stafford's "Nora" is all the part cally for; Susie Scott does Amanda Davis acceptably and Howard Fay is clever as need be in the role of Andrew Larkin.

AIL DRIVE NEEDED.

A NAIL DRIVE NEEDED.

More trouble for the builders. Now they way they cannot get the nails that are so necessary in putting our neat frame bungalows together. Strikes in the wire nail industry cut down production and we are on the verge of a nail famine. Anyhow, there is the customary advance in price. Unless there is rulief we will be pouring our bungalows from concrete or making more of them from hollow tile. With a dearth of nails what are our poor manicure girls to do? Nails may be scarce, but as long as the Johnson crowd holds out the people of California will have plenty of tax. Eh, what?

THAT NAUGHTY PARIS.

College students are advised not to go to Paris to complete their education. There are ten thousand American students in Paris now. We are informed that war has not chastened or improved the morals of the city. The paster of the American church in Paris says most of the students who so over there learn more of vice and impure philosophy than they do of aris and high ideals. They need praying for if they are to complete their studies without emerging with warped minds. The naughty influences of Paris may explain some of the Senstorial opposition to the League of Nation. The Senstors would spare our young from a contaminating alliance with the Presich capital. TAT NAUGHTY PARIS.

BOOZE PASSEA.

B Wartime prohibition may be hard on the constitution, but it is nevertheless constitutional. So the Supreme Court of the United States has decreed, despite the learned arguments of Eithu Root and other eminent counsel to the contrary. The Supreme Court justices have determined that the war began by an act of Congress approved by the President and that it will not end until the President and Congress agree to call it off. No ex parts statement by the President for by Sanator Lodge will suffice. The Supreme Court held that the President's statement, in addresses to Congress and elsewhere, that the war is at an end must be accepted in a literary sense that war is war and peace is peace and that the two cannot meet until the President and Congress compose their differences.

bit; for Federal judges in these districts had decided that the law was unconstitutional and they have been cases in a vast desert extending from lakes to gulf and from ocean to ocean. The last Mecca for the disciples of John Barleycorn has been demolished. Women and sons are still with us; but the bubbling wine that converted women into hours and gave to the music of a jars hand the alluring strains of the flute of Orpheus have been proscribed. O tempora; O mores!

Statisticians have figured that the 50,00,000 gallons of interiorating liquors still stored to the country and valued at prevailing prices at a little more than \$1,000,000,000,000 will be a total loss if peace is not concluded before the mational prohibition amendment goes into effect. In the eyes of the law this is true; but there are sections of the country, in California as well as elsewhere, in which the eyes of justice are dimmed by convenient cataracts. In Los Angeles war-time prohibition will be rigorously enforced, because the sentiment of the committy demands M. But those possessing stocks of flquor in Sacramento and San Froncisco will find the price enhanced by the flayrous Court decree. Prohibition laws have been on the statute books of a number of commonwealths for many years; but, despite the laws, there has not been a really dry State in the Unfor.

Union.

The government proscription of the manufacture of intoxicating liquors will have the effect of gradually reducing the supply, however, to a minimum and the next generation probably will be as much a stranger to alcohol as to crinolines and knee breeches. Bohemis is passing, whether for good or for ill. The American people, through their Congress and State Legislatures, have so decreed, and from that decree there is no valid appeal. Technology, Pasadena, has informed The Technology, Pasadena, has informed The Times that a chapter of the union has been established in California, with Dean Gayley of Berkeley as chairman. Dr. Scherer represents the Executive Committee for Southern California. The union was organized in London on July 4, 1918.

Section London on July 4, 1918.

Early in its career the Union is battling some ancient prajudices which have served to separate the two peoples. Most of us are familiar with Thomas Jefferson's admonstion about "entangling alliances." A pamphlet issued by the Union points out that several years later he modified his views. In 1823 Jefferson wrote: "With her [England] on our side we need not fear the whole world. With her, then, we should most sedulously nourish a cordial friendship; and nothing would tend more to knit our affections than to be fighting once more side by side in the same cause."

A Tragedy of the Desert. RENT GOUGING. RENT GOUGINO.

As a subject of community interest profiteering in rentals in Los Angeles is becoming more prevalent and more annoying, according to complaints brought to the attention of several semiofficial organizations. A long list of these complaints has been submitted to President Miller of the Los Angeles Reality Board and that organization has been asked to conduct an unbiased investigation and, if the action is found to be justified, to issue a public condemnation of the guilty. Some of these complaints were printed in the Fact and Comment column of The Times on Sunday. They reveal a story of harsh impositions

FUSTA ASSOCIATION. Few residents of Los Angeles realize how much the flessas beld here in the closing decade of the last century had to do with the early advertising of the wonderful climate and scenic beauties of Southern California. The factor of the bettless of California. fornia. The fame of the battles of roses held at a time when winter had not relaxed its icy clasp on the North and the East traveled with tourists and picture ver forgets.

So it is with unmixed pleasure that The Times greets the renaissance of the fiests apirit. An association has been formed and pledges are being secured sufficient not only to bring the romantic carnivals back only to bring the romantic carnivals back again, but to make Los Angeles a featival city the year around. All work and no play is as depressing to a city as to an individual. The fame of the Olympian games of ancient Greece lives through the centuries. Many of those communities are remembered only by their Olympia sports. The acropolis of Athens and the coliseum of Rome are monuments not to rulers, but

be done as well in the valleys of the sun of Southern California. Musical festivals in the open air; dramatic entertainments; In the open air; dramatic entertainments; Olympian games; agricultural exhibitions and carnival days; the plan of the Fiestas Association is ambitious enough to include them all. Our growth during the last ten years has been directed almost exclusively along material lines. We have paid too much attention municipally to private enterprises and neglected the city beautiful. Where are our public library, our collecum. Where are our public library, our collecum, our civic center? Echo only answers our civic center? Echo only answers "where"? We have thousands of art lovers, but have done nothing for art; thousands of music lovers, but no municipal austicivium; possessed of a love for athletic have no collecum.

Visions of a wet Christmas are thus rede-y shattered. The bootlegger and the soonshiner are protected from ruinous competition and the cost of alcoholic stim-

competition and the cost of accounts with the uniformly high cost of living. Louisville, New Orleans and Providence are the hard-hit; for Federal judges in these districts had decided that the law was unconstituted.

Social unrest is largely created by the

display of personal extravagance by those who have money. As long as there are grades in social standing as shown by the differences in wealth and expenditures for pleasure there is going to be this envy breaking out in divers wars.

It has been decided back East that steal-

ing a young widow out of her house was burglary. A mighty grand larceny, we

sports, we have no coliseum.

While Los Angeles is famed as a city of beautiful homes, there has not been as yet an awakening of the public spirit necessary to provide homes for our art, our music and our athletic enterprises. While it is too much to expect the Picatas Association to give us all these things, yet it is possible for it to take the lead in a movement that will bring them all in good season. The popularity of a charming hostess with sports, we have no coliseum. The popularity of a charming hostess with an artistic salon never wanes. If Los An-geles as a community will but consent to play the part of hostess her house will always be well filled.

WHY KILL YOURSELF? W Vital statistics show that suicide, its cause and prevention are subjects for consideration in this country, especially in California, where the per capita rate is out of all proportion to the lure of life. Southern California shows a better average than the

California shows a better average than the rest of the State, as is but natural where sunshine is prodigal and fortune kind.

Ambroce Bierce once characterized suicide as "the one act of supreme darins." which would be true enough if we could imagine a healthy man, in possession of plenty and with the best to enjoy it, deliberately taking his own life to prove his own daring. Usually, however, people commit suicide beally, however, people commit suicide be-cause they see, or think they see, some-thing in life which they do not wish to Usually the final act is committee under the influence of strong emotion strong enough to conquer the first law of nature and turn it to destruction. Let subcides act as they please and write as vitely as they usually do, there is something of magniloquent pose of final self-worship in their last mental attitude.

Your suicide is always magniloquent; let him try to disguise it in his last writings as he will. We all have a touch of it. Which of us has not, in early youth and yet warm from a maternal apanking re-tired to the most decolate corner of the garden and meditated an early death, with our own misguided parents as the chief and most remorasful mourners? They should learn, too late, the sterling value of the young genius they had thus roughly inverted, and bitterly would they recall the past as they looked upon us, lying coldly

beautiful in the front parlor. There would make them appreciate at last the inestima ble boon they had undervalued and mal treated until nature could stand no more

and the trusty sirgun had ended it all.

Verdict of the Coroner's jury: "Justifiable suicide, brought about by mistreatment and derision on the part of his guilty and broken-hearted parents." That would fix 'em. Sometimes this magniloquent mood would last until a jingling in the kitchen caused us to reflect that perhans 'tween would last until a jingling in the kitchen caused us to reflect that perhaps 'twera best to defer the final act until after lunch. Perhaps it would be as well to study the countenances of these people once more and gloat over the blow about to crush their self-conceit forever. Somehow it never got beyond lunch. Somehow the next blow that fell landed in the same old place the next time we were naughty. place the next time we were naughty.

place the next time we were haughty.

Your grown-up suicide is very like that; only his mind works too stiffly in its paychic joints to rebound at lunch time. He is tired with years of struggle; which is different from being tired with hours of play; and when he lets his imagination think for him he is dangerous from his habit of putting thought into act.

think for him he is damaged the habit of putting thought into act.

Every man makes an ass of himself once in a while; but, thank beaven, the vast majority of us live to blush in secret over our brainstorms and guard their disclosure from the cold and censorious world. Pity the poor suicide who is only saved from being ridiculous by the pittul remnant of pride that accompanies the sorry blot with which he writes down the period of his life. Let us pity him most for the perfect futility of his climax. All his blood will not wash out a word of his mortal record. He had the strength to go on—were it but for two words more—but he chose to rest his hand upon a crimson stain forever; a faiture in the game which sportsmen play failure in the game to the finish.

It was Oscar Wilde who turned a green and melanchely friend from self-slaughter by remarking in his Heping drawl: "Sui-cide is the best compilment one can pay

If social pests would take up suicide and make a hobby of it life would look bright-er, and so, to that dogree, would death. But they never do. That is past praying for. The rest of us are worth something alive, or our friends think we are, which amounts to the same thing.

Stevenson once wrote: "No one is use-less while he has a friend." While we have one let us cultivate another, for friendship's sake, and keep in stride with the world and the joy there is in it. So living we shall be too busy and happy to play the Roman fool.

As he grew older he began to wonder what was beyond the wall, for he heard voices of children at play. Bo, one day he found the gardener's ladder, climbed to the top of the wall and became very ested in the games side were playing, as boys themselves.

and his brother Josef; and relevant and Vittorio and several smaller boys.

After that Sammy frequently climbed up on the wall and became rather well acquainted with the boys, but could never be induced to come down and play with them. When he was a very, very little boy his father had told him to remain in the garden and, besides, he was a bit afraid of getting hurt.

One lovely summer morning Sammy heard the boys on the outside of the wall quarreling violently, so he ran up the isdeer and perched himself on his wall to watch the scrap. They were having a freefor-all and yelled for him to come down, eath side asking his help.

At last he made out that William and his gang were fighting Johnny and his crowd, but though he liked Johnny better, he didn't want to get his eye blacked, so he stayed on the fence. But when he caught sight of William kicking the other fellows' shins and biting, he got so mad he couldn't sit still any longer. That was no way to fight! He'd show 'em!'

was no way to fight! He'd show 'em! By this time the other boys were getting tired, so when Sammy, who was large and strong for his age, pitched in with all his might, it wasn't long before William yelled, "I'll give up."

Of course, Johnny's crowd was very grateful to Sammy for helping them lick William and his bunch, and this made Sammy so cocky he took most of the credit for the victory to himself and wanted to bost the gang. The boys stood for it a while, but at last refused to give in to him in everythins. Then Sam became furious, said he didn't want to play in their old back yard, anyway, and ran home and slammed the gate shut.

But pretty soon he grew tired of playing all by himself, so once more be climbed the wall to say "Hello" to the boys, but they were gone.

RIPPLING RHYMES.

THE STRIKE.

For many years, oh, dames and gents, I've written pomes for 20 cents, but now I've raised the price; a quarter now you must unload, if you would buy of me an ode, and naught less will suffice. My laurel wreath, the useful lyre that I have twanged with zealous fire, I've laid upon the shelf; no more shall I endure my wrongs; if you want helpful, deathless songs, you'il have to sing yourself. My wrongs! I don't know what they are, but in all places, mear and far, men talk of wrongs with bile; and I don't want to trail along without a single blawsted wrong—I want to be in style. I am resolved no tyrant's heel shall grind my face or place the seal of bondage on my hrow; and so my muse has quit her flights; I'll stand up for my sacred rights, though I must soak the cow. In vain your waiting children plead for elegies and odes to read, I've shut off the supply; in vain your wives the cupboards comb to find a madrigal or pome—there's nothing there but pls. In vain you rant around and curse because you cannot find a verse to paste inside your hat; until my wrongs, whate'er they be, have found a proper remedy, I'll sing no more, that's flat.

LINNARD SELLS THREE HOTELS

His Pasadena Houses Pass to Banking Syndicate.

Management Offer is Refused, New Owners State.

He Goes North to Talk Over Fairmont and Palace.

Three of Pasadena's leading notels, the Maryland, the Hunting: ton and the Green, were sold yesterday by D. M. Linnard to J. B. Coulston, president of the National Bank and Trust Company of Passdena at a figure reported to be \$3,000,000. The report of this deal was printed in Sunday's Times and Linnard. The former owner still retains a small amount of stock in the California Hotel Company, but control passes to the Coulston in-

Coast has ever had caused some commotion in hotel circles. It is believed by some that the sale was unexpected by Mr. Linnard, as he had made a working agreement with the Ritz-Carlton interests and had arranged with the American Express Company to establish offices for the hotel system all over the world. He also had planned botels in Seattle as well as western and mid-western cities. The deal following closely upon the Straus deal when five of the largest hotels of the chain were sold to S. W. Straus & Co. has caused a great deal of comment among hotel men.

RETAINS TWO HOTELS.

Mr. Linnard still has the management of the two San Frencisco hotels, the Fairmont and Palace. These he operates on a salary basis which is said to be \$15000 a year from each hotel. The Palace is on a year to year contract while the Pairmont was taken for three years, two sears of which have expired. Leroy Linnard, sen of the founder of the chain, will go to the Fairmont as assistant manager for the present. Changes in the management of the San Francisco hotels were intimated by Mr. Linnard last night.

night.

In the statement issued by the hotels it was said that Mr. Linnard had been offered the position as manager of the three big hostelries, but refused because he wished to take a rest. He said, the statement adds, that he is not retiring from active business, but that he believes that it is to the interest of his health to take a rest. Had he continued as manager of the chain of ten hotels, his would have had the spending and the supervision of the ding and the supervision of the ding of \$38,000,000 by August

HAS EASTERN CAPITAL

Associated with Mr. Coulston are several aastern bankers, whose names would not be divulged by those concerned.

Mr. Coulston said no radical change in the policy of the hotels was contemplated. H. M. Nickerson remains at the Maryland as resident manager; Fred M. Crosby at the Huntington, and Robert J. Reid at the Green.

the Huntington, and Robert J. Reid at the Green.

A. J. Bertonneau, who has been associated with Mr. Linnard many years, will continue as assistant secretary and treasurer of the hotel company under the new ownership. Former Senator Frank P. Film confinues as a vice-president. Stephen W. Royca, son-in-law of Mr. Linnard, will be secretary of the company. G. D. Smith succeeds E. C. Reninius in charge of the general accounting and auditing department of the hotels.

NEW TORK. Dec. 15. — Price movements during today's desultory session of the stock exchange were mainly downward, despite more hopeful signs in domestic industrial conditions.

The deadlock in Congress respecting the immediate future of transportation systems was again reflected in the heaviness of rails, while latest aspects of the Maxican situation accounted for reaction among oils.

The latter group, together with motor and their subsidiaries, equipments, shippings and siffliated issues, were 3 to 8 points down at their worst, but railied sharply in the final dealings, when call money eased from 9 per cent. to 6, a few isaders recording moderate gains at the irregular closs. Sales amounted to 900,000 shares.

Trading in bonds were unusually extensive, but irregular as to Libetry, Victory and foreign issues. Total sales, par value, aggregated \$49,450,400,000 old United States bonds were unchanged on call.

SUNSET IRRIGATED RANCHO

An opportunity in the great Cotton Belt of Arizona!

The Sunset Irrigated Rancho of 1921 acres is incorporated under the laws of the State of Arizona and has a permit to sell its stock within the Satisfic California from Hon. E. C. Bellows, Commissioner of Corporations. The incorporation and other legal papers were prepared in the office of O'Melves.

It is proposed to self the Preferred Stock at par, and to give one share of Common Stock with each share of Preferred Stock purchased. The Proferred Stock has the following features:

1—It draws 7% cumulative dividends which must be paid besides returning to the Preferred Stockholders the full amount of their investment in cash before any dividends can be paid on the Com-mon Stock.

2—The Preferred is preferential both as to principal and dividend in case of dissolution or liquidation of Corporation.

3—The Preferred Stockholders control the corporation until all their moneys paid for stock have been returned, so that no mortgage or other secured indebtedness can be placed upon the assets of the corporation, without the consent of the Preferred Stockholders.

The Preferred Stock is redeemable prior to December 31, 1924, at 105 and accrued dividends, and subsequent to that date at 110 and accrued dividends.

DIVIDEND CROPS

The average yield of Cotton in Arizona last year was \$100 net per acre on approximately 255 pounds to the acre. Many ranchers pro-duced 500 to 750 pounds an acre. Alfalfa should yield a net return of \$130

BIG LEASES OFFERED

Lands similarly located are leasing for from \$30 to \$60 per acre annually. If the land produces only \$50 per acre net annually, it would yield \$96,050, or enough to pay the interest on the Preferred Stock (\$17,500) and leave \$78,550 for redemption of the Stock.
